✉ m.umararif20@gmail.com

Summary

Dynamic Full Stack Developer with a proven track record in designing and deploying scalable web applications. Proficient in both front-end and back-end technologies, I specialize in delivering clean, efficient code under pressure. Dedicated to creating innovative, user-centric solutions that drive business growth.

Experience

360xpertSolution

- Built secure authentication systems using JWT and developed database-driven web apps with modern JavaScript frameworks.
- Designed scalable APIs and implemented E-Commerce solution using CMS platforms.

BetaCommunes (Intern)

- Developed full-stack projects including employee management systems, real-time chat, and blogging platforms.
- Enhanced UI/UX with responsive designs using MERN, Next.js, and PostgreSQL in agile environments.
